

# Dietetic Internship Master of Science in Nutrition

## Overview

## Program Details |

<p><b>Where does Concordia College's DI/MS program place the strongest emphasis?</b></p>	<p><b>Coursework  </b> Along with nutrition courses, students have courses in communication studies (Organizational Communication) and business (Leadership: Theory and Application).</p> <p><b>Supervised Practice  </b> Students demonstrate leadership skills while completing their rotations.</p> <p><b>Community Involvement  </b> Students have numerous local opportunities to gain leadership, volunteer or work experience.</p> <p><b>Master's Capstone Project  </b> Students showcase their program knowledge and leadership skills during the capstone. This involves conducting a needs assessment, writing a literature review, creating a project proposal and summarizing the project in a final report.</p>
<p><b>What are the most important details I need to know about the DI/MS program?</b></p>	<ul style="list-style-type: none"> <li>◆ The DI/MS program is 39 semester credits</li> <li>◆ Students complete the master's capstone as a culminating experience</li> <li>◆ The graduate course work is completed on campus with the exception of the following courses: Statistics, Applied Dietetic Practice and the Master's Capstone</li> <li>◆ The number of credits per semester range from 6 to 10</li> <li>◆ Continuous enrollment is required</li> <li>◆ Following successful completion of the program, you will be eligible to sit for the CDR credentialing exam AND have completed your Master of Science in Nutrition</li> </ul>
<p><b>Can I complete just one portion of the program, either the Dietetic Internship or the Master of Science?</b></p>	<p>Concordia's program is truly a combined program, meaning all enrolled students must complete both the dietetic internship and graduate courses to receive the master's degree and verification statement.</p>
<p><b>Can I enroll in the DI/MS program part-time?</b></p>	<p>The DI/MS program is designed to be completed in 21 months as a full-time student. A part-time option is not available.</p>
<p><b>Is the Concordia College DI/MS program accredited?</b></p>	<p>Yes, the DI/MS program is fully accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), 120 S Riverside Dr, Chicago, IL 60606.</p>
<p><b>How many interns/graduate students are accepted each year?</b></p>	<p>We accept up to eight interns/graduate students each year through the D &amp; D Digital Spring Match.</p>

<p><b>What are the eligibility requirements for the combined DI/MS program?</b></p>	<p><b>Students will have:</b></p> <ul style="list-style-type: none"> <li>◆ Completed a didactic program in dietetics accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) and received a verification statement of knowledge requirements</li> <li>◆ Earned a C or better in undergraduate courses in advanced nutrition, anatomy and physiology, and biochemistry</li> <li>◆ Completed a medical nutrition therapy course within the last 5 years</li> <li>◆ Completed a graduate or undergraduate course in statistics within the last 5 years</li> </ul> <p><b>NOTE:</b> The GRE is <b>NOT</b> required for application to the program.</p>
<p><b>Does the DI/MS program accept students who are not from Minnesota or not graduates of Concordia College?</b></p>	<p>Absolutely! We enjoy the diversity and richness that comes from students attending from all over the country. We have had interns from coast to coast.</p>
<p><b>Do all DI/MS interns/graduate students complete their supervised practice rotations in the local area?</b></p>	<p>Yes, over 70 percent of the supervised practice facilities we use are located within a 20 minute drive of Concordia College. There are several that are up to a 45 minute commute.</p>
<p><b>What does the supervised practice rotation include?</b></p>	<p>The DI/MS program is designed for students to gain quality experience in three main areas:  <b>Medical Nutrition Therapy</b> (hospitals, long-term care facilities)  <b>Community</b> (public health departments, wellness, WIC programs, extension offices)  <b>Management</b> (colleges, schools, hospitals, long-term care facilities)</p>
<p><b>What is the length of time for each supervised practice rotation?</b></p>	<p><b>Medical Nutrition Therapy</b>   10 weeks  <b>Community</b>   10 weeks  <b>Management</b>   12 weeks</p>
<p><b>What is the schedule for completing graduate courses and supervised practice rotations?</b></p>	<p>The DI/MS program starts in July with the online course, Statistics Research and Analysis, followed by graduate courses during the fall and spring semesters of the first year. Students complete the first half of their supervised practice rotations in the summer. In the fall of the second year, students complete graduate courses only. Spring semester of the second year, students complete the second half of their rotations and complete the master's capstone project.</p>

## Application Information |

<p><b>Who should provide the references for my application?</b></p>	<p>Professors and supervisors from work or volunteer experiences are recommended. Select someone who writes well and can describe your work ethic, strengths and relationships to others.</p>
<p><b>Why is nutrition-related volunteer or work experience so strongly encouraged?</b></p>	<p>Preceptors are interested in interns/graduate students who might be hired in the future, and who have proven themselves as dependable employees. Students who have some nutrition-related experience tend to adjust better to the pace of supervised practice rotations.</p>

<p><b>What are the steps to apply to the DI/MS program?</b></p>	<p>All applications for the DI/MS program at Concordia College are submitted through the <a href="#">Dietetic Internship Centralized Application System (DICAS)</a>. There is a \$50 fee for the first application, and \$25 for each additional application.</p> <p>Students must register with <a href="#">D &amp; D Digital Matching</a> and pay a \$55 matching fee. As part of the DICAS application process, students will submit a personalized letter of intent (i.e. personal statement).</p> <p>Transcripts should also be submitted through DICAS, and once a student is accepted, official transcripts showing degree and graduation date should be sent directly to the DI/MS program director. A non-refundable \$40 application fee is made to Concordia College and is required along with the DICAS application. Review all the application details on the <a href="#">Admission &amp; Applications</a> page.</p>
<p><b>What is the computer matching process for Concordia's DI/MS program?</b></p>	<p>Applicants who are interested in Concordia's DI/MS program must participate in computer matching. Concordia participates in the spring matching only. Contact D &amp; D Digital Matching for more information and to sign up for the matching process. Applicants pay a fee for the service that results in "match" notifications sent to both the student and the participating program.</p>
<p><b>Will I need immunizations and a background check?</b></p>	<p>Yes, following match and acceptance into the program, the DI/MS Director will provide you with a list of immunization requirements. Before completing supervised practice rotations, students are required to have background check(s) done, and additional immunizations. Some facilities also require drug testing and fingerprinting.</p>

## Outcomes |

<p><b>What type of advising/mentoring can I expect from the DI/MS program director and faculty during the program?</b></p>	<p>You will have access to full-time faculty and the DI/MS Director (100% with doctorates in their respective fields) who are committed and dedicated to your success in the program and beyond. The DI/MS Director will act as your advisor throughout the program.</p>
<p><b>Will there be emphasis placed on practicing for the CDR exam?</b></p>	<p>Yes, student success on the CDR exam is one of our main goals. Students will complete an in-depth review of all sections within the exam, take practice tests, and at the end of the program, participate in a two-day comprehensive review.</p>
<p><b>What are the benefits from completing the master's capstone project?</b></p>	<p>The master's capstone project is where students can fully showcase the skills, knowledge and experience they have acquired throughout the program. The capstone can be used as a strong example of your work when applying for dietitian positions and can potentially be implemented in organizations where you are employed in the future.</p>

## Financial Information |

<p><b>How much does the DI/MS program cost?</b></p>	<p>The cost per graduate credit is \$590. There are several one-time costs including a \$40 application fee, approximately \$150 for background checks and \$500 for textbooks. There is also an annual Academy membership fee of \$60. See the full list of DI/MS program and living costs on the <a href="#">Program Costs</a> page.</p>
<p><b>Can I receive financial assistance for the DI/MS program at Concordia?</b></p>	<p>Yes, eligibility for loan programs will be based on the FAFSA. Students enrolled in the DI/MS program can be eligible for federal student loans for graduate coursework, which allows a maximum loan of \$20,500 or the cost of the program, whichever is less per year. There are no institutional grants or scholarships available for a master's program. Thanks to a very generous Concordia alumna and spouse, Janet and George Dahlman, for covering Concordia dietetic interns' registration, airfare and lodging costs to attend the <a href="#">Food and Nutrition Conference &amp; Expo (FNCE)</a>. FNCE will be held in New Orleans, LA in October 2021.</p>
<p><b>Is it possible to have a job/work during the DI/MS program?</b></p>	<p>Yes! Students are welcome to hold part-time jobs during the first academic year, but must leave employment prior to beginning supervised practice rotations. Fortunately, most students are able to return to their part-time jobs in the fall of their second year in the program. There are several nutrition and dietetic-related jobs for the DI/MS students in the Fargo-Moorhead area. Examples include working in a hospital diet office or call center, aids in long-term care facilities, teaching at the YMCA or a wellness center. See the <a href="#">Community Resources</a> page for opportunities.</p>
<p><b>Will I need a car during my time in the program?</b></p>	<p>Yes, students will need a car for travel to and from campus and supervised practice facilities. Students must have a valid driver's license and are expected to adhere to state requirements for auto insurance.</p>
<p><b>Who is responsible for finding housing while I attend the DI/MS program?</b></p>	<p>Students in the DI/MS program make their own housing arrangements. The DI/MS Director surveys current students in the program each year for information about living arrangements, and provides these helpful answers to incoming students.</p>
