

Post Bacc Pre-Medical Program

Your future career as a healthcare professional begins here.

Concordia College has an outstanding tradition and reputation for excellence in preparing students for careers in health professions. Our Post Bacc Pre-Medical Program will prepare you to become a competitive applicant for your chosen health professions school. Our multi-track program caters to two student populations - career changers who need to complete all or most science prerequisites and academic enhancers seeking to strengthen their academic records.

What sets our program apart

- ◇ A customized course schedule designed to meet each student's unique academic needs and career goals
- ◇ Personal advising and mentorship throughout the program from the program director and the Health Professions Advisory Committee (HPAC)
- ◇ A networked learning community of teaching faculty and students
- ◇ A state-of-the-art multi-functional science center designed to promote strong engagement, connecting faculty and students in a collaborative environment across science disciplines
- ◇ Diverse opportunities for healthcare experience in the local area

Academic Pathways

- ◇ **Career-changers** with a bachelor's degree outside of the sciences, seeking to complete prerequisite core coursework required for most graduate health professions programs
- ◇ **Academic enhancers** with a bachelor's degree in the sciences, repeating coursework and/or taking additional supporting science courses to strengthen their academic records
- ◇ **Post bacc students** taking individual prerequisite courses for other health professions programs

Time & Cost

Duration of study and program cost vary depending on courses needed to meet individual student goals for their intended health profession.
Per credit cost is \$830.00.
